(248)-802-0817 | chinimi2@msu.edu | nchinimilli3.github.io/neha-pm-portfolio/

EDUCATION

Michigan State University | East Lansing, Michigan

Expected May 2027

- B.S. in Computer Science | B.A. in Supply Chain Management
- GPA: 3.4, Dean's List: 6/8 Semesters

PROFESSIONAL EXPERIENCE

Accenture | Technology Summer Analyst | San Francisco, CA

June 2026 – Aug 2026

- Prototyped and iterated an OpenAI API-powered workflow using tool calling, MCP, and RAG; translated stakeholder business needs into product requirements spanning 12 training offerings across 3 regions and 6 languages.
- Built a 6-week product roadmap for Salesforce intake, scheduling, capacity, and communications; mapped user flows, edge cases, failure modes, escalation paths, and AI guardrails to support launch readiness.
- Analyzed delivery-capacity data and 3,862 user responses, identifying an 8x utilization gap and a 14.4-point recommendation gap; translated customer insights into adoption priorities and product improvements.
- Designed scalable operating workflows as an AI training product moved from a 269-session pilot to partner-led delivery, translating a six-stage lifecycle into routing logic, impact tracking, documentation, and role-based handoffs.

Ford Motor Company/Ford Credit | Software Engineering Intern | Dearborn, MI

Summers May 2023 – Aug 2025

- Managed Agile delivery for a 7-member engineering team and Jira-tracked sprint priorities across 5 cross-functional teams; resolved dependencies and improved CI/CD workflows to reduce release cycles 40%.
- Translated customer needs into product requirements for a customer-facing document automation feature, integrating Salesforce APIs with Adobe Experience Manager to increase delivery success 15% and reduce errors 6%.
- Analyzed 20+ production incidents using Splunk and ServiceNow and authored 4 Confluence recovery playbooks, standardizing troubleshooting, release handoffs, and functional documentation across engineering teams.
- Conducted 4 user interviews and modernized a full-stack customer feedback web application with Material-UI, prioritizing usability and accessibility improvements that increased feedback volume 25%.

PwC x Arc of Indiana | Consulting Extern

Aug 2024 – Oct 2024

- Built a weighted 7-category Excel scorecard from stakeholder requirements to evaluate competitor outreach and training programs, translating high-level business needs into measurable criteria for product and growth decisions.
- Benchmarked 5 peer organizations across 10+ engagement and innovation metrics, synthesizing findings into 5 recommendations adopted by Arc leadership to improve customer reach and employer partnerships.

PROFESSIONAL AND LEADERSHIP DEVELOPMENT

Michigan State University Russell Palmer Career Management Center | Peer Coach | East Lansing, MI

May 2025 – Present

- Conduct 20+ coaching sessions weekly as part of 25-member team, mentoring 200+ Broad undergraduates on resumes, LinkedIn, interview readiness, and networking via Handshake, VMock, and tailored one-on-one or group sessions.
- Guide students pursuing consulting roles through case-interview practice, resume refinement, and targeted industry-specific coaching sessions, earning ~40% of all positive feedback across 800 appointments and 25 coaches.

Dashney's Women's Leadership Accelerator | Scholar | East Lansing, MI

March 2024 – Present

- Selected for Cohort 2, participating in executive sessions on strategic communication and women's leadership in business.
- Created a 40-member engagement initiative within DWLA to strengthen cross-cohort participation and program visibility, coordinating logistics, communications, and execution to recognize influential women across the community.

Spectrum Consulting Group | Consultant | East Lansing, MI

Sept 2022 – Present

- Analyzed 3,000+ customer survey responses for a national hotel chain, identifying customer-experience friction points and recommending 3 digital initiatives that increased social media interaction 20% and improved facility utilization.
- Collaborated with a 7-member team to define 19 KPIs and assess 3 software platforms for a multi-million-dollar utilities client, translating business requirements into reporting frameworks that improved resource planning 15%.
- Led a \$15K automotive workstream, mapped the end-to-end customer lead-management experience, and prioritized process improvements that reduced manual data entry ~30% and projected a 25% lift in demo conversions.
