

Neha Chinimilli

(248)-802-0817 | chinimi2@msu.edu | nchinimilli3.github.io/neha-pm-portfolio/

EDUCATION

Michigan State University | East Lansing, Michigan

Expected May 2027

- B.S. in Computer Science | B.A. in Supply Chain Management
- GPA: 3.4, Dean's List: 6/8 Semesters

PROFESSIONAL EXPERIENCE

Accenture | Technology Summer Analyst | San Francisco, CA

June 2026 – Aug 2026

- Prototyped and iterated an OpenAI API workflow for a frontier AI lab using tool calling, MCP, and RAG; translated stakeholder discovery into user stories, requirements, acceptance criteria, and solution concepts for 12 offerings across product teams.
- Owned a 6-week roadmap and prioritized Salesforce intake, scheduling, capacity, and communications backlog items; evaluated 30 edge cases by customer value, technical feasibility, risk, and effort while surfacing dependencies and blockers across teams.
- Analyzed 3,862 user responses and operational data to identify an 8x utilization gap and 14.4-point recommendation gap; defined product KPIs and success measures to track launch performance and inform post-launch backlog priorities and iteration.
- Ran pilot experiments, usability feedback sessions, and product demos for a 269-session rollout; designed routing and role-based workflows while documenting release decisions, stakeholder feedback, and adoption plans for partner-led delivery at scale.

Ford Motor Company/Ford Credit | Software Engineering Intern | Dearborn, MI

Summers May 2023 – Aug 2025

- Conducted 4 user interviews and usability tests for a full-stack customer feedback product; synthesized qualitative insights into journey maps, problem statements, and interface improvements that increased feedback volume by 25% across internal teams.
- Built document automation integrating Salesforce APIs with Adobe Experience Manager; documented requirements and acceptance criteria, validated implementation considerations, and improved delivery by 15% while reducing data errors by 6%.
- Managed Jira backlog priorities, dependencies, demos, and releases with a 7-member engineering team; balanced user needs and technical tradeoffs through refinement, planning, testing, and production rollout across product teams.
- Investigated 25 customer-impacting issues using Splunk and ServiceNow, identified root causes, and authored 4 Confluence recovery playbooks; proactively surfaced recurring risks and cut restoration time by 50% through standardized troubleshooting.

PwC x Arc of Indiana | Consulting Extern

Aug 2024 – Oct 2024

- Built a weighted 7-category Excel scorecard to evaluate competitor programs, combining quantitative evidence, stakeholder priorities, and strategic fit into a repeatable framework for prioritization and evidence-based product decisions across teams.
- Benchmarked 5 peer organizations across 10+ engagement and innovation metrics; synthesized qualitative and quantitative findings into 5 recommendations adopted by leadership and communicated rationale through concise client deliverables.

PROFESSIONAL AND LEADERSHIP DEVELOPMENT

Michigan State University Russell Palmer Career Management Center | Peer Coach | East Lansing, MI

May 2025 – Present

- Conduct 20+ coaching sessions weekly on a 25-member team, translating individual goals into tailored recommendations for 200+ undergraduates while managing competing priorities and communicating complex decisions clearly across programs.
- Guide students through case interviews and role-specific decisions, earning ~40% of positive feedback across 800 appointments and 25 coaches through structured problem solving, quantitative reasoning, concise communication, and responsive iteration.

Dashney's Women's Leadership Accelerator | Scholar | East Lansing, MI

March 2024 – Present

- Selected for Cohort 2, participating in executive sessions on strategic communication, influence, and women's leadership while applying feedback through collaborative work, stakeholder engagement, and structured decision making across cohort initiatives.
- Created a 40-member engagement initiative to strengthen participation and program visibility; coordinated stakeholder input, communications, logistics, launch, and continued iteration while owning execution from initial concept through rollout.

Spectrum Consulting Group | Consultant | East Lansing, MI

Sept 2022 – Present

- Led \$15K automotive SaaS workstream, mapped end-to-end lead workflow and evaluated 4 platforms across integration fit, functionality, cost, and usability; recommended automation projected to cut data entry ~30% and lift demo conversions 25%.
- Built a performance management framework for a multimillion-dollar utilities client by defining 19 KPIs and evaluating 3 software platforms; translated business requirements into recommendations that improved resource planning by 15% at scale.
- Developed customer acquisition and digital strategy for a hospitality client using 99 survey responses and 3,000+ data points; synthesized user behavior into 3 prioritized initiatives to improve awareness, engagement, conversion, and measurable outcomes.

ADDITIONAL INFORMATION
